Why Not Stop At

San Antonio, Texas?

It is a city of pictures, where the early Fathers and the Dona built missions and chapels that stand yet—where stands the old Alamo, famed in history for the only battle of its kind.

It is on your way back East—you can get stop-overs by merely asking the ticket agent.

The booklet, "San Antonio," a booklet de luxe on the same kind of a city, will be sent at the behest of a postcard.

PRESIDENT OF MEXICO VISITS U.S. EMBASSY.

Huerta Ignores All Precedents to Call on Henry Lane Wilson.

Two Thousand State Troops Are Closing in on Naco. Yaqui Braves Are Again on the Warpath—Carranzistas Are Defeated in a Battle at Nuevo Laredo, in Which Thirty-five Men Are Killed and Fifty Injured.

BY A. P. NIGHT WIRE TO THE TIMES.

MEXICO CITY, March 17.—[Exclusive Dispatch.] President Huerta, disregarding all precedents, called upon Henry Lane Wilson, the American Ambassador to Mexico, today. This is the first time, it is said, that a Mexican President has called upon the American Ambassador to Mexico, today. The President was accompanied by Francisco de la Barra, Minister of Foreign Affairs.

President Huerta told Ambassador Wilson he had ratified the understanding between the American Ambassador and the Foreign Minister that all questions pending between the United States and Mexico be taken up and adjudicated without loss of time. He referred especially to the claims of Americans arising from the Mexican revolutions and also to the Chamizal boundary and other disputes.

Brig.-Gen. Billa is Guarding Mexican Soldiers Who Surrendered Across the Border.

WASHINGTON, March 17.—[Exclusive Dispatch.] Secretary of War Garrison today instructed Brig.-Gen. Billa to hold the arms and equipment of the Mexican Federal soldiers, who, after being routed by the rebels from Nogales, Mex., fled over the boundary to Nogales, Ariz., and surrendered to Col. Wilder. It has been thought necessary to keep the fugitive soldiers under guard chiefly because they were left to shift for themselves. Secretary Garrison emphasized the importance of keeping them under a sufficient guard, and advised locating their camp at a reasonable distance from the international line.

MOVE ON NACO.

CANANEA (Sonora) March 17.—[Exclusive Dispatch.] The rebels today to participate in the movement against Naco. Their departure was not contested by the Federal troops, which remain in their barracks here.

Banks Closed in Hermosillo.

WASHINGTON, March 17.—[By A. P. Night Wire.] Official reports today from Hermosillo indicate all work is at a standstill as all banks and stores are closed. The State government is apparently protecting American interests.

New Departure.

JUDGE INDORSES MORALS COURT.

JUSTICE OLSON OF CHICAGO OUTLINES ITS WORK.

Declares New Tribunal Will Act as Magnifying Glass for Existing Evils and Believes Science Can Solve Crime Problem from Practical Standpoint.

CHICAGO BUREAU OF THE TIMES, March 17.—[Special Dispatch.] Science will abolish vice. This is the belief of Chief Justice Olson of the Municipal Court.

Outlining the work of the new moral court, which is to be inaugurated, Judge Olson said:

"The moral court will act as a sort of magnifying glass that centers the sun's rays upon a spot. Persons seeking to protect vice will find it impossible to influence the court, because there will be but one court to hear all the vice cases in Chicago. Carranzistas are being offered opportunities for changes of venue."

The question has reached such great import that its solution rests upon the study of eugenics will be applied to all defendants. The people must be informed of the dangers that vice carries with it. What we do is to draw a sharp line between those who finance vice and the weak-minded women who are their prey."

"Vice is not a question of poverty, but of intelligence. When the vice inquiry was on I visited forty girls in a notorious house since closed. These girls were the reputation of being graduates of leading girls' schools and colleges. Not one of them was a common school graduate. Not one had led a good life after she had reached 17. This shows vice is really a child study—that it must be struck at early to abolish it."

Lieut.-Gov. O'Hara said that "it will be the voice of the people of Illinois that will speak to President Wilson asking for a living wage for the working girls and women. Illinois will not stand alone in asking for a national minimum wage law. We are going to see the President because we believe the question demands that the Senate Committee make such a trip."

WANTS UNITED STATES TO RECOGNIZE HUERTA.

BY A. P. NIGHT WIRE TO THE TIMES.

WASHINGTON, March 17.—[Exclusive Dispatch.] Juan Ochoa Ramos, a wealthy Mexican, a close friend of Felix Diaz, is here to try to obtain from the United States recognition of the Huerta provisional government in Mexico. Senator Ramos has seen President Wilson and Secretary Bryan. Although he has been in Washington several days, the real purpose of his visit did not leak out until today, it having been announced when he arrived here that he was in this country merely as a visitor and to look after interests of his personal interests.

Senator Ramos has considerable interests in the United States and is an immense land holder in his own country. It is understood that he told President Wilson and Mr. Bryan that Huerta was a man of great power to restore tranquility in Mexico and that the recognition of his authority by this government would be of invaluable aid in securing permanent peace.

JUDGE HONORS ST. PATRICK.

Releases All Prisoners from Nashville Jail Who Say They're Irish.

LA P. NIGHT WIRE TO THE TIMES.

NASHVILLE (Tenn.) March 17.—[Exclusive Dispatch.] Judge Killen, following his annual custom, visited the local Police Station and announced today to the prisoners that in honor of St. Patrick's Day he would release all the Irish. Every inmate of the prison, including some negroes, asserted they were sons of Erin, so Judge Killen released them all.

Twisted By Bryan

(Continued from First Page.)

"Two years from now Ireland will be celebrating home rule," he said. "There is every reason to believe that the House of Commons will pass the bill."

Mr. Bryan declared that the victory for Ireland would be a victory for freedom and would mark the end of aristocratic rule.

"When the House of Lords is compelled to give its assent to the bill," Mr. Bryan said, "it will mean the beginning of home rule for the whole earth. It will be a tremendous triumph for Ireland and her part in the great struggle will be gratefully remembered by every country that is struggling for freedom."

The victory of this great principle will not be acceptable at first perhaps to Great Britain and Scotland, but in the end they will find that it is immensely to their benefit."

BRYAN IN CHICAGO MEETS GOV. DUNNE.

CHICAGO, March 17.—[Exclusive Dispatch.] Secretary of State W. J. Bryan arrived here tonight and went into conference at once with Gov. Dunne. Later Mr. Bryan made a brief appearance at the Irish Fellowship Club's St. Patrick's Day banquet, at which Gov. Dunne was one of the principal speakers.

Col. James H. Lewis, Democratic candidate for United States Senator from Illinois, headed the list of speakers and many State Legislators were among the diners, but before they conferred with the Governor, Mr. Bryan refused to discuss the Senatorial situation in Illinois.

"There will be no political significance in whatever I may say at Lincoln," said Mr. Bryan. "I have been busy in Washington and I had to leave all my bases and I don't know what I will say either at Springfield or Lincoln. It is the first time in a good many years that Democrats have had anything to celebrate in Lincoln and that is the reason I am going there."

POWERS IGNORE BALKAN DEMANDS

CONSIDER REPLY AGREEMENT TO MEDIATION.

Will Reconstruct Frontier Line from Enos, on Sea of Marmora, to Midia, on Black Sea, and Will Not Entertain Question of Indemnity, Settle Aegean Question.

BY CABLE AND A. P. TO THE TIMES.

LONDON, March 17.—[The Euro-peon powers virtually have decided to ignore the demands of the Balkan allies to the effect that they will not entertain a question of indemnity to accept the proffered mediation.

The powers in their reply will congratulate the allies on agreeing to mediation and will propose that the frontier line be drawn from Enos, on the Sea of Marmora, to Midia, on the Black Sea, instead of from Rodos to Midia, all the territory to the west of the proposed line, with the exception of Albania, going to the allies.

The note will declare that the question of an indemnity cannot be entertained and will state that the Balkan allies and the Aegean Islands are in the hands of the powers for final settlement.

"SHOOT HIM" CRY WOMEN.

"Why Don't You Blow Up Premier Aquith?" Is the Question Asked Mrs. Pankhurst.

BY CABLE AND A. P. TO THE TIMES.

LONDON, March 17.—There were militant scenes today at the weekly gathering of suffragettes in a London street, and the cry of "Shoot him" was heard as Mrs. Pankhurst, shouts of "Why don't you blow up Premier Aquith?" and "Shoot him" rang through the hall.

Mrs. Pankhurst referred to her approaching commitment to jail on the charge of inciting malicious damage and then to her daughter's imprisonment.

"My daughter," she said, "is trying to release herself as a prisoner of war from the enemy, and is enduring all the tortures of confinement."

At this juncture the hall resounded with an outburst against Premier Aquith and his cabinet ministers.

The suffragette leader continued to relate how her daughter, Sylvia, "during the last eleven days of her imprisonment was not only forcibly fed but was deprived of sleep. She was in solitary confinement and for exercise was absolutely left to her own resources while undergoing that treatment."

The speaker announced that Miss Lansbury and Mrs. Moore, two militant suffragettes, were released from custody today.

Mrs. Pankhurst incidentally attacked the labor party leaders. She said they had professed to be in favor of the women and had received help, both personal and pecuniary, but had done nothing to forward the cause.

DRY SPELL IS BROKEN.

Rain in the North Is Coming South.

Farmers and Fruit Growers Relieved by Downpour that Saves Crops.

Inch of Water Falls at Santa Rosa; Deluge Is General in Sacramento Valley.

BY DIRECT WIRE TO THE TIMES.

STOCKTON, March 17.—[Exclusive Dispatch.] Rain began to fall throughout San Joaquin Valley early after 5 o'clock this afternoon and continued steadily up to a late hour tonight. The precipitation, however, was light and quickly soaked into the parched earth, leaving the crops in a long storm has set in and that will be a heavy downpour tomorrow morning.

The rain has halted large droves of cattle which local farmers were preparing to take to the foothills for pasture. If it continues for twenty-four hours, there will be no danger of grass and farmers will no longer be anxious to move their stock alone. The rain also has created an opportune time for young grain, some of which was replanted a few weeks ago.

Had it been delayed five days more, the crops would have been irreparably damaged. Vineyards, orchards and truck gardens will come in for their share of new life.

WOMEN NURSES GET MORE PAY.

Governor's Latest Idea Costs Large Sum Annually.

Wages of State Hospital Employees to Be Equal.

Add Twenty Thousand Dollars to Pay Rolls.

(BY DIRECT WIRE TO THE TIMES.) STOCKTON, March 17.—[Exclusive Dispatch.] The bill for the equalization of wages for the women nurses of the state hospitals, which was introduced by Governor Johnson, has been passed by the assembly.

DOWNPOUR SAVES OROVILLE CROPS.

(BY DIRECT WIRE TO THE TIMES.) OROVILLE, March 17.—[Exclusive Dispatch.] A drenching rainstorm started this afternoon, breaking the long drought. The storm is most timely inasmuch as it will ensure a measure of good feed in the mountains, and will prevent any grain or hay loss. It also is most timely for the farmers, who are now planting. The rain is reported to be in excellent condition but a further continuation of the drought would have meant a serious loss. Power men and those depending on irrigation have been worried by water conditions in the past, but late storms will relieve condition.

FEARED FOR THEIR FLOCK. SHEEPMEN OVERJOYED.

(BY DIRECT WIRE TO THE TIMES.) SACRAMENTO, March 17.—[Exclusive Dispatch.] The rain of the afternoon and tonight has relieved the necessity of introducing a resolution in the assembly to memorialize Congress to allow the sheep owners to send their flocks into the forest reserve. A delegation of sheep men arrived here today to urge the adoption of such a resolution, claiming that the sheep would not be killed if rain did not fall. Just when matters looked blackest for the sheep owners, the welcome rain fell.

REVEL ON LINER SHOCKS CLERGY.

(BY DIRECT WIRE TO THE TIMES.) HONOLULU, March 17.—[Exclusive Dispatch.] The revel on the liner Hula Hula, dancing till midnight into day, has shocked the clergy.

ABE RUEF'S TESTIMONY REMOVES PRISON CHAPLAIN.

(BY A. P. NIGHT WIRE TO THE TIMES.) AN RAFAEL (Cal.) March 17.—[Exclusive Dispatch.] The Rev. W. B. Ruef, chaplain at the San Quentin penitentiary, was dismissed today as the result of an investigation last night into charges of irregularities on his part. Mr. Ruef's salary was attached today for the payment of groceries and other bills amounting to approximately \$1000.

PARENT PROVIDES FOR STORK VISIT.

(BY DIRECT WIRE TO THE TIMES.) RIVERSIDE, March 17.—[Exclusive Dispatch.] Actuated evidently by motives of dire necessity, attributable to an anticipated visit from the stork, an unknown individual yesterday afternoon entered the home of Mr. and Mrs. Charles E. Cremer at No. 199 East Seventh street, and appropriated a baby buggy, in addition to Baby Cremer's clothes and coverlets from the crib. These were the only articles missed, although it was evident that the house had been ransacked for an infant's outfit. Meanwhile the birth records are being scanned with unusual interest.

YOUNG DIVORCEE A SUICIDE.

(BY A. P. NIGHT WIRE TO THE TIMES.) PASO ROBLES, March 17.—[Exclusive Dispatch.] A young divorcee of Paso Robles, decided today to commit suicide in her room in a cheap hotel. She put a razor to her throat, but lost her nerve at the touch of the steel; but a moment later she opened a window and jumped three stories to the pavement. Her back and both arms and legs were broken and she died at a hospital.

GAS COMPANY TO EXTEND.

(BY A. P. NIGHT WIRE TO THE TIMES.) LOS ANGELES, March 17.—[Exclusive Dispatch.] The Los Angeles Gas & Electric Corporation has been asked by the State Railroad Commission for authority to issue \$900,000 bonds for extension purposes. The objects, specifically, are the purchase of the Valley Gas & Fuel Company for \$173,000; purchase of additional gas generating set and of six large turbines, \$123,000; the extension of the distributing system for new consumers, \$400,000; extension of the electrical distributing system, \$350,000.

ABE RUEF'S TESTIMONY REMOVES PRISON CHAPLAIN.

(BY A. P. NIGHT WIRE TO THE TIMES.) AN RAFAEL (Cal.) March 17.—[Exclusive Dispatch.] The Rev. W. B. Ruef, chaplain at the San Quentin penitentiary, was dismissed today as the result of an investigation last night into charges of irregularities on his part. Mr. Ruef's salary was attached today for the payment of groceries and other bills amounting to approximately \$1000.

rather than sheriffs to draw juries. He persistently advocated this measure before he resigned as Governor, but since that time an amendment has been attached to the bill providing for a referendum of the question. Holding that the object of the referendum is to delay the issue and eventually kill the reform, Mr. Wilson has said he feels that the people already have approved the idea by electing the Democratic legislative ticket on a platform pledged to jury reform.

Overstocked Piano Sale

We have not considered the original retail price—regardless of the actual worth of the pianos, we have marked them at figures which will make them go.

For the past few months we have done an unusually large business in Knabe and Behning Player Pianos. In selling many of these our liberal policy has permitted us to take many excellent standard make uprights in exchange. These instruments have been accumulating until we find ourselves completely overstocked. We must have room—we must turn these instruments and get the money they represent. Quick action is necessary and we have determined that "price" shall not stand in the way of a sale. We have carefully gone over the entire stock—those that needed overhauling have gone to the shop, some have needed new parts, some have been practically rebuilt and refinished; they have all been put in first-class condition. And we have priced them with but one thought in mind—to make them go.

BENEDICT BILL PASSES BY A UNANIMOUS VOTE

Assembly of the California Legislature Agrees With out a Single Note of Dissent that Los Angeles Should Have Enlarged Powers to Manage the Affairs of the Harbor—Caminetti for Federal Immigration Job.

BY LOU GUERNSEY.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, March 17.—[Exclusive Dispatch.] The Benedict bill giving the city of Los Angeles greater power in the administration of harbor affairs at San Pedro passed the Assembly today by a unanimous vote. The measure gives the city power to establish streets, make railroad connections and to establish harbor lines at the San Pedro Harbor. Looked for opposition from the San Francisco delegation failed to materialize.

All bills that seek to transfer to the State tidelands that have been ceded to municipalities, and bills that propose to transfer to cities tidelands now under control of the State, will be discussed tomorrow afternoon in the Assembly Committee on Commerce and Navigation. The bills conferred by Assemblyman Schmitt of San Francisco providing that the Los Angeles, San Diego, Long Beach and Oakland tidelands transferred to the municipalities two years ago be turned back to the State were considered at that time. Delegations of representative citizens from Los Angeles and the three other cities named are expected here to argue against the bills.

Legislators from Los Angeles are confident that the Schmitt bills will be overwhelmingly defeated if they ever reach the floor of the Assembly. Delegates from San Diego, Long Beach and Oakland are lining up with the Los Angeles legislators to smash the bills.

PUBLIC HEARINGS.

Public hearings on various important bills are to be held every day and evening, and by the time another week-end arrives there are expected to be a record in bills passed or ready for consideration on the floors of both houses.

WORK ACCOMPLISHED.

The Assembly accomplished more than the Senate during the past week, but that record is nothing to be proud of, considering that adjournment is to come April 26, and one-seventh of the session is already passed, with but a small number of the 4000 bills having been considered even in committee.

TO WITHDRAW BILLS.

If many of the Senators follow the plan of Senator Larkins of Visalia there will be a load of work lifted from the shoulders of committee members of the upper house. Senator Larkins has introduced twenty-seven bills, and said today that he intends to withdraw twenty of them.

That is one of the evils of this haphazard session, said the Senator in telling of the rush of bills at the January sitting. "Many bills are introduced in a hurry, and as they are brought or sent to us by our constituents, we had to put them through in many cases without having a chance to read them over, much less to study all their provisions. I am going to withdraw twenty of the bills which I have introduced for that reason. Many of them are freaky and not proper to enact into laws."

Many other Senators are of the same opinion as Larkins, so it is expected that a large number of bills will be withdrawn in the near future.

WORKING WOMEN.

Conditions under which working women live in California were brought out today before the special committee to investigate into the causes of the social evil. Incidentally the minimum wage problem has been taken up. Mrs. Charles Farwell Edson of Los Angeles, Assistant State Labor Commissioner, stated that the lowest price at which women can get room and board in Los Angeles is \$4.50 a week. This low rate is available for a limited number of women who are employed in the city.

COMMITTEE HEARINGS.

Following are a number of the important committee hearings to be held:

Tuesday, March 18, at 10 a. m. "Conservation."

Wednesday, March 19, at 10 a. m. "Conservation."

Thursday, March 20, at 10 a. m. "Conservation."

Friday, March 21, at 10 a. m. "Conservation."

CHIEF KOHLER IS CONVICTED

"Golden Rule" of Cleveland Discharged from Office.

His Work Praised, but His Morals Condemned.

Sentence Imposed Reducing Amount of His Pension.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CLEVELAND (O.), March 17.—The Ohio State Commission announced tonight that it had found Chief of Police Fred Kohler guilty of "gross immorality, conduct unbecoming an officer and gentleman, and conduct subversive to good order and discipline in the police department," and immediately discharged him from office.

The above charges were filed by Mayor Baker and the trial of the Chief was heard last week.

The charges involved alleged visits of Kohler to the home of Mrs. May Decherer on February 2, May 23 and June 5, 1912, in the absence of her husband. On the last-named date, Decherer testified in the trial that she had seen Kohler and his wife in the Decherer home "in scanty attire."

TRIED TO PROVE ALIBI.

Kohler attempted to prove alibi for the first two dates and declared his mission on the night of June 5 was an innocent one. Last September Decherer was granted a divorce from her husband in a suit in which Kohler was named as co-respondent.

"Had we authority," the commission said, "we should add to the sentence a permit to which a retired Chief is entitled, in view of the term and character of his service, but we are without power to do so."

In a statement issued last night Kohler indicated his willingness to resign if allowed to receive his full pension of \$125 a month. If discharged, his pension would be but \$65 a month.

GOLDEN-RULE POLICY.

Kohler is 49 years old and has been a member of the police department for twenty-four years and Chief for ten years. He was recognized as "the golden rule" of the police department. Kohler's work as police Chief, and his character as a man, were praised by the commission's decision.

Three years ago Kohler was tried and acquitted by the Civil Service Commission on charges of drunkenness and personal misconduct in office.

Borrow from Us and Save Trouble

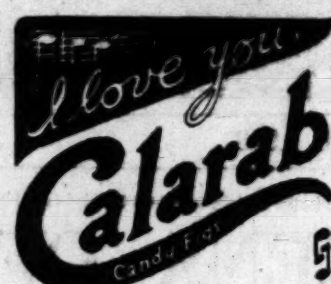

A loan from us is a help—not a hindrance. Neither the payment of the interest nor the payment of the principal will give you any great trouble because it is all provided for beforehand.

At the time you arrange for a loan with us, you determine just what amount you can set aside each month and agree to pay that amount to us. These monthly payments apply on the loan as well as the interest, so that the amount you owe us grows smaller and smaller each month—and of course the interest decreases accordingly.

This systematic method of lending money has been successfully employed by us for more than 23 years. We now have over \$3,400,000 loaned, and do not hold a dollar's worth of real estate taken through foreclosure. This demonstrates the ease with which our borrowers pay their loans.

Call and let us tell you more about our system, or write for Loan Folder.

tion the Council to instruct the City Attorney to bring legal action against the Board of Education to cause it to remove all buildings, fences and obstructions from the cemetery grounds and to have the cemetery placed under the supervision of the city park department and restored, as nearly as possible, to its original condition.

SAYS SAW VANDALS.
"The three members of the Native Sons' committee visited the cemetery Thursday and had an opportunity to witness some of the vandals in action," Lichtenberger said yesterday. "We saw twenty-five students from

the Sand-street school with picks, shovels and wheelbarrows excavating on the south side of the cemetery adjacent to graves. We learned that they were taking the earth to a plot in the school yard, where vegetables and flowers are to be planted. I asked the students who gave them permission to work there and they could not explain. Then I went over and talked to a teacher in the school yard who was cognizant of what was going on. I asked her by what authority the pupils were removing earth from the cemetery and she gave no satisfactory answer.

"I commanded the pupils to stop their desecration of the graves and they obeyed. When I returned the next day I saw that the holes had been filled with the branches of pepper trees."

PROTECTING, DECLARES HOUSEL.
When Principal House of the High School was advised of the charges made by the Native Sons, he gave this statement yesterday afternoon: "The High School pupils are doing just the opposite of that with which they are charged. They have been trying to protect the cemetery from desecration and have been standing guard there. The deeds of vandalism have been committed by other persons unknown to me. I think that most of the destruction has been wrought on Saturdays, Sundays and at night when our pupils were not there to prevent it."

"We have begun the construction of a fence around the cemetery to protect it. As soon as this work started it seemed that the activity of vandals, for some reason, was increased. It appears that they took this action to show their resentment toward our school."

"The City Council ceded to the Board of Education the ground on which the old entrance to the cemetery was located. A passageway to the cemetery through the school grounds has been kept open and people pass in and out every day, and not only a few but many. The east sixty feet of the cemetery was ceded to the Board of Education several years ago, and thereafter the fence was removed. "The City Council last year transferred the entire cemetery to the

Board of Education on condition that it purchase from the present owners of the lots their titles and make arrangements to have the remains transferred to other cemeteries. The Board of Education has purchased a large tract in Rosemead Cemetery that will have perpetual care to which the bodies from the old cemetery may be removed. The City Council will erect a monument there to the pioneers.

"It is true that our surveying class worked in the cemetery for the reason that the city originally surveyed only the east half of it. The students surveyed the remaining half so that the lots might be properly conveyed by deed to the Board of Education. "Until Mr. Baxter called on me, I did not know that wagons were driven across the graves. The garbage wagon went into the cemetery to turn around. As soon as I learned that it had been driven across graves I had it stopped. A fence was built to prevent a repetition of the offense."

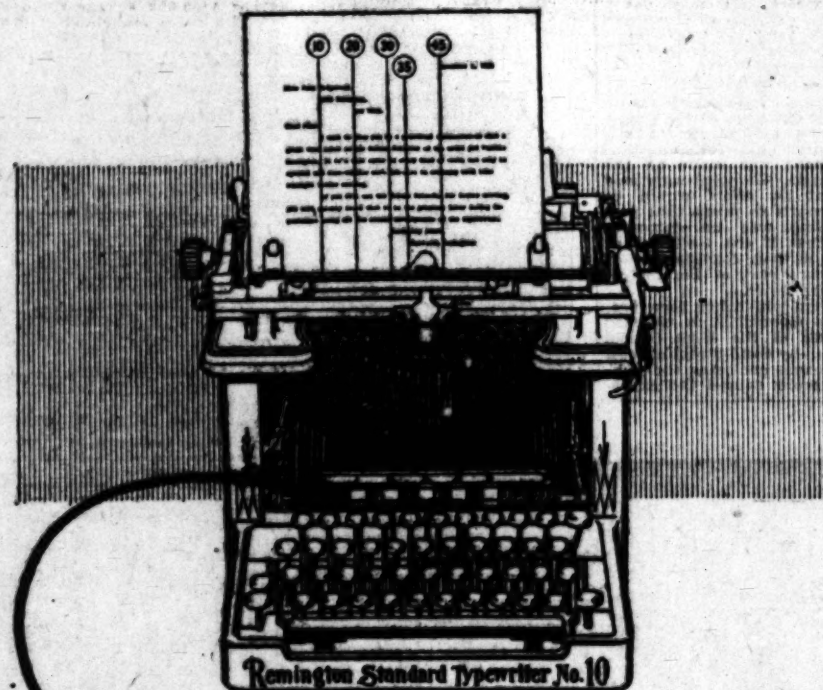

DESECRATION.
The old city cemetery was dedicated January 8, 1863. It was ordered closed in 1898, and after that date there were no more burials there. The area originally was five acres. Of this tract about two acres are used by the High School.

The High School handball court immediately adjoins the graves. Other graves are adjacent to the handball building on the west side. A marble slab, now shattered, that stood at the head of the grave of George Fisher, ironically enough bears the inscription, "Erected as a last tribute of affection by his children." Other graves that have suffered severely at the hands of the vandals are those of: Mayor D. Marchessault, monument overturned; Mayor John G. Nichols, monument defaced; Mrs. Killam Workman, vulgar expression written on monument; William W. Sands, headstone shattered; Mrs. Laura Louise Crawford, monument overturned; Mrs. Maggie Olson, headstone shattered; Jenkins Chapman, brick wall torn down.

Proportional Representation

And the Black Cat in the Meal Crossed—
Socialism and Goo-Gooism.

SOME of the Goo-Gooes, in their frantic desire to retain clutch upon the treasury and the government of Los Angeles are tampering with the Socialists and seeking alliance with them. To effect their alliance the Earl-Liesner-Eddie crowd are ready to concede "proportional representation" to Darrow and Harriman, and their associates.

Proportional representation means that a small minority of the voters shall be permitted to share the offices and the functions of government with the majority. It means that a few men whom the people would not trust as hog reeves or pound masters shall, with a "proportional representation" lever, pry themselves into the City Council, and force themselves into place as commissioners to control the legislation, increasing the indebtedness to the city, and pending the revenues of the city. It means that Darrow and Harriman, with the forced contributions of union labor jingling in their pockets and swelling their bank accounts shall, by an unholy alliance with Earl and Liesner, share with the latter in the power they have abused and participate with them in the control of the city government that the combination will misapply and misappropriate.

Without proportional representation none of the Socialists could come within gunshot of securing an office. With it they would be able to secure three members of the City Council. These scrupulous men in the Council could, by means of taxes and bargains, effect an alliance with Progressive cranks, the result of which would be to give unbridled license and opportunity to a minority to paralyze majority or even plurality rule, and plunge Los Angeles into a vortex of bankruptcy, with the splendid opportunities for the completion of the Panama Canal will afford as disguised a frittered away.

Proportional representation means disproportionate distribution of power. If there is any one principle of government, whether of nation, State, or city, that is anchored in the hearts and minds of the American people, it is that the will of the majority shall be the law of the land.

This principle would be disregarded if not destroyed by the adoption of a policy that the majority shall not rule, but must surrender the function of making and enforcing laws into the hands not even of a minority, but of a minority of a plurality of the vote.

It is up to the home owners and those who hope and expect to be home owners in this city, to vote on the twenty-fourth of the month against a charter amendment that would, if adopted, lay upon us a system of government that has been repudiated in other cities.

Proportional representation is not one of the legitimate doctrines of the Progressive party. If it shall be advocated or tolerated by the Progressive journals and Progressive leaders of Los Angeles such advocacy will be the offspring of an illicit and unholy alliance of Earl and his little coterie with Darrow and Harriman and his gang. Its object will be to loot the public treasury and load a heavy debt upon the shoulders of the taxpayers.

Every merchant, every mechanic, every man and woman in Los Angeles who has the well being of this city at heart, every one who is content to make an honest living and to abide by the elementary principles of representative government, every Progressive, every Democrat, every Republican, every Prohibitionist in this city should oppose the unholy alliance of Goo-Gooism with anarchy, and go to the polls on Monday next and vote against the charter amendment which calls for proportionate representation.

Fighting the Flames.

ART'S RESCUE.**
MUNICIPAL LODGING-HOUSE IS
LOATH TO BURN.

Kerosene Solves Problem and Final Thrills in Police and Firemen's Benefit Show Are Furnished as Scheduled—Girl in Palms Dives Through Air—Bouts.

When the curtains went up on the big show, Patman Leland was discovered walking his best in front of a row of frame buildings on the streets of a second-rate town. Franks, the keeper of a saloon on the lower floor, slipped into his coat and intercepted Leland at 1 a. m., living in hand, to show that he was living up to the closing ordinance.

In closing up after the day's business, Franks evidently forgot some of his patrons, for from the saloon front door Mrs. Margaret Rice emerged a minute later, her child in her arms, and announced a fire by giving the rebel yell.

Thereafter things happened in a hurry; men and women in scant attire, rushed from the structure in the red glare, while the clang of gongs announced the approach of fire-fighting apparatus, called from a fire box on an imaginary street corner. In a twinkling the police arrived and established fire lines, while Chief Eley and Capt. O'Malley and his pomper men directed the rescue of the guests from the hotel rooms and the roof garden—three palms, artificial, and a bunch of violets, real. Scaling ladders and the aerial ladders brought down the nervous, while the harder ones, including Miss Freda Frederickson, in pajamas, leaped into the fire nets. An automobile, covered with advertising banners, also made a spectacular leap through a store window, to safety from the flames.

All rescues were to the accompaniment of screams and the click of the motion picture camera. The liveliest scream of all, however, came from Mrs. Lizzie Kelly. When she endeavored to cross the hot sands in her bare feet, following her rescue, Mrs. Kelly also did private complaining when the found that in the hurry of her flight to safety, she had left her pair of new shoes behind.

Injuries were few. Payton Hart, a picture player fireman, was cut about the face, and nearly overcame by the sulphurous smoke of the red fire, while Mrs. Kelly's finger was cut by glass. The rescues were to have been followed by the burning of the structure, but the fire was extinguished by the arrival of the fire department.

WOMEN'S WEEK OF HARD WORK

They'll Carry Charter Fight to Every Voter.

Arrange for Daily Meeting Till Election Day.

Club Workers Enlisted in the Firing Line.

THIS is woman's week in the charter amendment campaign, and it is the week when the women of Los Angeles will be most active in the fight to secure the proposed amendment to the city charter. The women are being urged to arrange for daily meetings from now until election day, and to carry the fight to every voter.

Beginning today and continuing until the election next Monday, public meetings for women will be conducted at the El Comodoro Hotel, 125 Broadway, at 3 o'clock. The meetings will be held in the afternoon at 3 o'clock. The meetings will be held in the afternoon at 3 o'clock. The meetings will be held in the afternoon at 3 o'clock.

It is also requested that women who desire to make the first excursion to the harbor at San Pedro from the Pacific Electric Depot Friday morning at 10 o'clock, will notify Mrs. W. C. Tyler, at once, as only 150 women can be accommodated and reservations will be made in the order in which they are received. Jack Jones has donated 500 sandwiches for this outing so that all who make it will be served with a free box lunch.

At the women's club on Tuesday afternoon at 3 o'clock, the discussion of the charter amendments will be held. This afternoon at 3:30 o'clock the civic department of the city will be held. LETTERS TO "THE TIMES."

The Socialist Menace.

LOS ANGELES, March 16.—[To the Editor of The Times:] In a few more days the Socialists, at the charter election, will again attempt to fasten their pernicious doctrines on this city. The followers of the red flag have a new recruit in the person of Earl, owner of the Express and Tribune, but both papers have for a long time, in a sneaking way, favored Socialism, and it is not to be regretted that they have now come out into the open. The proprietor of the papers named has claimed a high "moral tone" for his publications, but he has at last undeceived everybody. When he posed as an advocate of Guy Eddie, and then of Darrow, self-confessed admirer of the methods of the McNamara, there was really nothing left for him to do but to join the Socialists. There can and do have a chance to find out.

READY FOR ANYTHING.

Oil Case Witness Comes to Court With Whole Array of Diaries in Defense of the Espo.

E. T. Dumble, a witness in behalf of the Southern Pacific in the Elk Hills suit, appeared before Special Examiner Longley again yesterday. On Saturday he had one diary to refresh his memory; yesterday he was armed with four. The questions for the most part during the day were answered by reference to them.

Dumble declared that by a map prepared by Joseph Owen, in November, 1902, the following classification of the lands in the vicinity of McKittick had been decided upon: Proven oil, 1240 acres; probable, 7840 acres; possible oil, 11,560 acres. The lands were segregated according to this classification. Longley again yesterday. On Saturday he had one diary to refresh his memory; yesterday he was armed with four.

NUMERAL PLAYS TAG AT FIRES.

FIGURES FREAKISHLY IN FOUR IN TWO HOURS.

Bank Building Threatened; Three Homes, Two Sheds and Barn Destroyed—Sparks, Combustion, Water Tank Catches—Invaluable Are Saved from Flames.

The numeral "2" played a freakish part in four fires that gave firemen an unusual amount of hard work and called the horses on exceptionally long runs yesterday.

Two fires were turned in for fire No. 3 in the Boyle Heights district. Mrs. A. W. Baker, No. 743 Lord street, frantically telephoning that her house, endangered by a blaze at No. 757 Lord street, contained two story houses owned by W. H. Cook and occupied by Mrs. Fred J. Gilles. Spontaneous combustion caused a blaze in a basement of the International Bank building. Little damage was done—the numeral "2" not figuring.

Two "2" figures in fire which destroyed Theodore Guyer's bungalow at No. 2320 Gansahl street, causing \$1500 loss. Sparks from a bonfire caused the blaze.

Engine Co. No. 2 responded to the first of the two fires at Boyle Heights. Fire No. 2 in each district broke out while firemen were engaged in answering the first alarm. Fire No. 2 occurred almost simultaneously, although miles apart.

Two battalion chiefs—O'Donnell and Casey—raced to fire No. 2 in the business district, neither knowing the other was responding. They met within two blocks of the blaze and raced two blocks.

DATE FOR HEARING.

South Pasadena Doctor Charged With Grand Larceny Will Have Court Preliminary Next Week. Preliminary examination of Dr. L. O. Wilcoxon, charged with grand larceny, will be held before Justice Reeve a week from next Thursday. His bail of \$2000 will stand until after the hearing. Attorneys Sparks and Myers represent him.

Deputy District Attorney Shannon, who drew the complaint, declares he has sufficient evidence to warrant holding the defendant for trial in the Superior Court, that he can connect Wilcoxon with members of the so-called bunco trust. Dr. Wilcoxon reiterates his denial of complicity in crooked deals.

The specific charge against the defendant is that he secured several thousand shares of stock in the Columbia Security Company of Philadelphia from J. H. Rose of Seattle and refused to give them up.

Police declare they have evidence showing Wilcoxon was intimate with members of the Purey gang and that he was with them in alleged shady deals. Attorney Sparks maintains his client is not connected with any confidence men.

TO REHEAR FREIGHT CASE. Railroad Commission Sets Date for First Probe into Rates Between City and Harbor. Rehearing of the harbor rate case is scheduled for April 4, when the State Railroad Commission, acting on its own initiative, will begin a fresh investigation into the reasonableness of the freight rates charged between this city and its harbor by the Salt Lake and Southern Pacific railroads. President Eschleman and Commissioner Loveland are to preside at the hearing, which will be held in the Supreme Court rooms in the Bullard building.

FRESNO GETS SHOWERS. FRESNO, March 17.—[Exclusive Dispatch.] A slight trace of rain fell in Fresno and vicinity late this afternoon, but tonight the sky cleared and it is not likely that any more showers will occur. Rain is very badly needed in Fresno and in the entire San Joaquin Valley, and cattlemen will be put to the expense of purchasing feed if there is not a rain soon to start the young grass. The last fall started the grass, but was not enough to keep it growing. The little showers brought the season's fall to 4.24 inches against a normal average of 7.49. Last year's fall to date was 4.61.

THE above illustration is a photographic reproduction from a window display made by Brock & Co. during Fashion Show Week.

The design consists of 199 perfect diamonds, together with exquisite emeralds, rubies, pearls and sapphires—all ranging in value from \$40 up to \$1250 per stone.

While this special design represented but a very small portion of the perfect diamonds displayed in our window—and those in our window but a small portion of the diamonds in our stocks—yet the total value of the stones in this one piece was in excess of \$50,000—a fact significant of the generous quantity of perfect diamonds we have gathered from which you may make selection.

You will find here breadth of selection and rare beauty and brilliancy of individual stones that is rarely duplicated. Welcome.

FUNDS NEEDED FOR CHARTER CAMPAIGN.

THE Committee of One Thousand Citizens, conducting the campaign for the charter amendments approved by the Citizens' Organiza-

tion, has issued a stirring appeal for funds to carry on the work. It is necessary to incur certain expenses to get out the vote, and the money thus far has not been forthcoming. The cause is of overwhelming importance and the need is great. The committee says:

"If we are going to beat Socialism in our city, we have got to do it now, for the added strength of the so-called Good Government organization makes the fight all the more difficult to win."

"We now most urgently appeal for funds. Send in your contributions today, that we may make a winning fight, to T. E. Newlin, treasurer, care Farmers' and Merchants' National Bank, city."

"The Socialists not only have ample funds, but a very large working force. Do you want them to win? If not, help us."

ability from bankers and clergymen in the Ohio city. The case will be on its preliminary hearing Friday, when a plea of not guilty will presumably be entered.

NEW YORK'S SPEED ORDINANCE. A Woman Demonstrates that Its Drastic Limitations Are Not Required for the Public Safety.

[New York Tribune:] A few days ago, when the proposed ordinance restricting the speed of automobiles in the city to eight miles an hour was being considered by the New York City Board of Aldermen, Mrs. Joan Newton Cuneo of Scarsdale, N. Y., who is unquestionably the most expert woman motorist who has ever been in the public eye, made a series of brake tests under the supervision of the Automobile Dealers' Association, Inc. These tests were for the purpose of demonstrating that the proposed ordinance of limiting speed of automobiles in the city to eight miles an hour was absurd.

Mrs. Cuneo demonstrated that a car running at fifteen miles an hour could stop within practically its own length, provided the brakes were adjusted properly, and she used a heavy fifty horse power touring car for the demonstration. In order to make the test an extreme one.

Following the trials, Mrs. Cuneo wrote a letter to Mayor Gaynor, calling his attention to the fact that the proposed ordinance would be unfair to motorists, and also offering also to demonstrate to him personally for his own satisfaction if he so desired. The Mayor replied to her communication.

"A STITCH IN TIME saves nine," so the old saying runs. You can share in this saying, which is one of the many also by consulting the "Dressmakers and Dressmaking" columns of The Times Classified section. (Advertisement)

Wrecked His Wife's Home.
Drunk Man Sips a Glass or Two of...
DINUBA, March 17.—James Lawrence, an Alta district rancher, during the absence of his wife yesterday afternoon, completely wrecked her home. After knocking the furniture into kindling wood, he threw the wreckage through the windows and completed the work by smashing stove and kitchen utensils into bits. Lawrence and his wife recently agreed to disagree and Lawrence has been living in a tankhouse across the road from his house which he turned over to his wife. After Lawrence was satisfied that he had done a good piece of work he walked to a field half a mile distant, where he held up Elmer Perkins, a neighbor, and at the point of a revolver compelled Perkins to visit the Lawrence home and view the damage. Perkins agreed that a consistent piece of work had been done and Lawrence allowed him to go. Neighbors informed the police that a man was in the Alta district country and Lawrence was placed under arrest. Today he admitted that he may have had a glass or two of light wine before the cyclone struck the Lawrence home. He was placed under bonds to keep the peace.

LANE for a great get-together...
NEWPORT BEACH, March 17.—Aristocrat Ralph Newcomb's hydro-aeroplane is lying on a sand bar at the lower end of Newport Bay, a total wreck. Newcomb was making a flight this morning about 10 o'clock and flew from East Newport to Corona del Mar in fine shape at a height of twenty feet. On his return trip he was gliding along the water when he ran into a submerged sand bar that was covered with only about four inches of water. The momentum of the machine carried it forward, smashing the pontoons and framework to kindling wood. Newcomb was thrown from his seat but was not injured. The machine was the same one in which Robert Fowler and Newcomb flew from San Francisco to Palm Beach, Fla., a year ago. It was a double-propeller Wright machine and had been fitted with two pontoons by Newcomb at his workshop here so as to convert it into a hydro-aeroplane. Newcomb says he is through with water flying and will rebuild a new machine around his unharmed engine and ship the machine East, where he will give exhibitions this summer. Theatrical and amusement advertisements offered hereafter for insertion in the daily edition of The Times will be printed on the first page of the pink section. See today's issue.

The Investment Opportunity of the Year
THE well-nigh countless opportunities for investment in Los Angeles render it extremely difficult for the investor to properly discriminate between the good, bad and indifferent. The flowery statements and lavish use of words by some advertisers make it difficult also for the genuinely meritorious enterprise to conservatively present its proposition to the investing public. The Los Angeles Motor Truck Manufacturing Co. has been organized by a number of prominent and influential business men of Los Angeles who recognize the immense possibilities in the manufacture of motor vehicles for commercial purposes. A large amount of the company's stock has been subscribed at par value—and a limited amount is now offered to the public on the same basis. You know of the vast fortunes that have been made in the automobile business. Vaster fortunes are yet to be made in the manufacture of motor trucks—for this branch of the business is yet in its infancy and will admit of immense and permanent growth. The use of motor trucks in Los Angeles alone has increased over 1500 per cent. in the past year.

The Immense Demand for Motor Trucks
More than 25,000 power wagons valued at \$62,500,000, are being used in the United States today in the express, transfer and haulage business. A year ago the number was not more than 9000 and the investment \$22,500,000. Twelve months hence there will be 65,000 machines, worth \$162,000,000. During the next year, then, expressmen and others will buy 40,000 trucks at a cost of \$100,000,000 and these machines will do the work of 300,000 horses.

Special Features of the Walton-Joslyn Patent "Underslung" Double-Worm-Driven Motor Truck
The principal idea in the construction of this truck has been to produce a machine that will stand the strain of heavy work, run continuously and carry large loads at a minimum cost for upkeep and repairs. All parts are covered by patents except the steering-gear, motor and transmission. Special methods of construction, simplicity of operation and low operating costs will enable us to build and put on the market

A 10-Ton Truck for the Price of a 5-Ton
and still make a greater margin of profit.

Absolutely rigid underslung chassis. Low center of gravity. Loading platform less than two feet above the ground. Ample road clearance. Driven with double worms to each rear wheel. All parts housed—dust and dirt proof. Wheels all steel, built up section, indestructible.

All bearings Hess-Bright, with safety factor of 75 per cent. Worm driven loading winch—always ready for immediate operation without shifting gears or clutches. Simple construction. Highly efficient. Very powerful.

Entire loading platform accessible from rear and both sides. Every working part, including bearings, drives, etc., accessible for inspection. Repairs can be made without removing parts other than those to be worked upon—thus eliminating excessive labor and repair bills.

M. S. Walton, M. E. A. E., who drove, operated, and exhibited the first gasoline propelled vehicle in the State of Illinois, and who is a mechanical engineer and designer of marked ability, having been affiliated with the automobile industry for the past 20 years, is mechanical engineer of the Company.

These two men have patented and evolved a truck (the main features of which are described in the center of this advertisement) along new and distinctive lines that will revolutionize the motor truck industry. The Company already has on hand and in sight a large number of orders—sufficient to keep the factory working for months to come.

FROM A CARR WINDOW.

IN SPITE of the newly-rained atmosphere of this page, I think I will stick around. Prize fighters are beginning to pull upon my consciousness, anyhow. After this, we will live for art and be temperamental like Sarah Bernhardt.

Not that we are for Sarah. After what has happened, our hearts are as stone for the Frenchwoman. We are not softened even by the fact that she clasped her hands and screamed, "Oh, the beautiful vengeance," when she saw our attractive young Chief of Police.

The truth about Sarah is that she is a pitiful old woman whose occasional compels her to work when she should be at anchor in some friendly harbor of refuge.

I saw her in "Theodora" and I thought it was dreadful.

Her voice, of which we expect so much, is no longer the wonderful silver instrument of which you read in the critics. It has become high and strident. Sometimes in scenes of unusual vehemence, it is dangerously near a squeal.

The once-great actress is so weak and feeble that she is supported every instant that she is on the stage. She makes her entrance leaning on the arm of a lady-in-waiting. Once on the stage, she goes from a chair to a table; from the table back to another chair.

In one place, where the "business" makes it absolutely necessary for her to cross the stage, she is supported by one of the minor characters. As though in deep meditation, she holds herself up with one hand on his shoulder.

Another star in whom I was greatly disappointed was Mabel Wilton, who has been chosen for the all-star revival of the "Merry Widow."

The mental processes by which she transforms the "Merry Widow" into a chaotic and ladylike twist are truly amazing.

It proves, no doubt, that Mabel is a lovely young girl; but if that waits meant anything, it means a serious abandonment of the author's drama not put into words. All the "business" of the dance, the half-dancing attitude of the woman, were clearly intended by the composer of the dance to convey the idea of an abandoned woman.

Miss Wilton floated through the dance like a beautiful bird. She suggested a chaotic young girl gradually dancing a scarf dance on commencement day.

Not that we would have it either way. Mabel's old dance is beautiful and uplifting—but rather dull. I am sure we are all waiting for the way Miss Wilton danced it. But do you suppose it is going to be thus in the all-star production?

Rube Marquand, the celebrated vaudeville star of one month's standing, is now the haughty possessor of a temperamental. Yesterday he kept himself to his room at the hotel and would only permit his friends to timidly approach him over the telephone. I fear, however, for Rube's temperamental when the blackboard gets hold of him.

UP AND DOWN BROADWAY.

BY "ZIP."

UCH is the way of art. Dick Ferris's Italian grand opera company which recently had the courage to play an engagement at the Lyceum Theater in opposition to Herr Dippe's "A Sea of Cortez" organization have moved their efforts two blocks north on Spring street and are now passing out real opera from the stage of the Princess Theater.

The spring has come. At least, I hadn't thought of it until yesterday when I spied Herbert Standing promenading serenely down Broadway in a 1913 model Fordcity car. And believe me it takes a whole lot of courage to bring out the first one of the season.

London is hot on the trail of "Pag o' My Heart." Yes, three English managers have been burning up a whole lot of good money cabling Oliver Morosco in an effort to secure the English rights to the Manners comedy.

Perhaps the most prominent in the little battle by cable has been Ellen Terriss, who, through Elizabeth Marshall, the well-known New York playbroker, has made all kinds of alluring inducements to the Los Angeles manager in an effort to secure the piece for England.

But all have received the one answer: "Nay—nay—no." Mr. Morosco will not give up. And there's a reason—with apologies to the cereal—for he is counting on "Pag" for his introduction into London theatrical circles. He declares that when this delightful little Irish character crosses the Atlantic, she will be in the person of Laurette Taylor, and no other, and under his personal direction.

Consequently on next Sunday, Alan Campbell's new comedy, "The Dust of Egypt," which is just now the reigning success of the London stage, will give its first American production.

This week is announced as positively the last and there will be only seven more performances of the Thomas play, owing to the decision of the management to hereafter open the new Morosco production on Sunday afternoon, instead of Monday night, as has heretofore been the policy.

Augustus Thomas's powerful play "The Whitching Hour" began its second week at the Morosco theater last night. This remarkable play attracted audiences of capacity proportions during the first week of its run and the remaining performances will so doubt be of uncommonly large proportions in the matter of attendance.

"SIREN" PLEASES GREAT CROWD.

Carroll McComas Shines in Comedy at Mason.

"Witching Hour" Second Week at Morosco.

Edison Kinetophone a Success at the Orpheum.

BY HECTOR ALLIOT.

In its original form "The Siren," which was given at the Mason last night, was a clever and suggestive satire on certain phases of social life in Vienna.

What proved the success of this musical play in that great city of all cities, where imperial censure sharpens the wit and calls for the keenest efforts of playwrights exists no longer but as a faded memory in the English version of Harry B. Smith.

Our men of letters have not that delicious incentive of being jailed for less majesty and what is poignant and daring in Vienna would be inexcusably dull and foolish with us.

Dancing in "The Siren" is the clever veil thrown by Leo Stein and A. M. Willner to cover their criticism of existing social conditions in the capital of Austria-Hungary. In its adaptation, the dancing is the feature which is emphasized for the purpose of showing off the Tarapachean talent of Donald Brian.

While the first act is somewhat commonplace and gives a merely to the exhibition of dancing by Brian and the choruses, it is pleasing enough. The dancers are well trained, the music acceptable, and the singing, except that of Ethel Cadman, Clarisse, the wife of the Minister of Police, not specially thrilling.

In the second act, however, Brian, in the attractive uniform of the white Hussars, and Miss Carroll McComas as Lolette have a dancing duet which redeems any shortcomings of the preceding act.

While Donald Brian has no great talent as a singer, he is a most graceful and handsome dancer, and "The Siren" is a dance play.

Carroll McComas, a native daughter of Los Angeles, once known as a whistler of much ability, comes to us now as an ingenue of great promise.

Her youthful figure, her ability as a dancer, the freshness of her singing voice, combined with her former art skillfully introduced, contributed largely to the success of "The Siren" whom she impersonated in a very satisfactory manner.

As the veterinary surgeon, Hannibal Beckmesser, Will West, farcical comedian, introduced many amusing features entirely unknown to the audience. So did Florence Morrison as Frau Einbehr, the keeper of a post tavern, a very attractive woman, who, in the part of the Siren, stands on the lid and sings. Presently it begins to move from side to side, then to spin dizzily round and round, the man still playing on. That piano is a ballet.

Hal and Frances give a song-and-dance skit, "On the Farm." Edwards, Ryan and Tennyson likewise entertain with song and dance and piano, and the hold-overs are the jolly Hess Sisters and the even jollier Hennings.

Through the office of Basil, Minister of Police, in his conservatory and the tavern grounds in the suburbs of Vienna, the slender theme of a country girl, who, as Minister of Police, for some poetry written against the government, is developed.

The Marquis dances himself free from writing incriminating words on dancing scores, on autograph books and passports which would establish his authorship of the poem, to fall in love with Lolette, the fresh, innocent country girl.

The desperate and universal stirring propensities of the Viennese is delightfully shown and often excused, because the women of the Austrian capital are considered the most beautiful of Europe.

The "Siren" is weary of the social butterfly, falls an easy victim of the young and unsophisticated maiden of "Mon Bijou" as it should be.

"The Siren" is a touch of romance which is pleasing, many of the songs are attractive and so is the dancing.

Orpheum.

A remarkably interesting feature of this week's bill at the Orpheum is the try-out of the talking moving picture, Edison's latest invention, and one of his greatest. If the kinetophone, the wonderful, the kinetophone is perhaps even more so. A man comes forward—in moving pictures, of course—and makes an announcement, and then the kinetophone is used, and so on, and this is followed by a musical programme, a girl playing on a violin, a man on a piano and another girl singing. The musical part goes better than the talking—it may be because here we do not notice so plainly that light travels faster than sound, and that therefore the lips move a perceptible time before any sound is heard. Sound and movement do not quite "hitch." Perhaps the illusion of reality will be greater when colored pictures are used. After music, dishes are smashed, dogs rush in and bark, and in each case the sound is perfect. More music follows, Edison's Minstrels giving an entire programme. The kinetophone opens (remotely possible).

Comes Will Crescy once more, with Miss Dayne, in Crescy's latest little farce comedy, "The Man Who Remembered." The playlet has all the well-known Crescy hallmarks—dry and penetrating humor, convincing characterization, a fine line in appeal to the heart. What would vaudeville do without Crescy and all his little plays? It goes without saying that "The Man Who Remembered" is excellently played, and that no point escapes the talented author of all the points.

A musical comedietta of much spectacular interest is "Puss in Boots," made over by Frank Kennedy from an English pantomime by Jean Bedini, music by B. A. Rolfe. There's a whole berry of pretty girls in it and they wear all sorts of pretty and becoming clothes that are artistically attractive in color as well as in design. The rights testify that the girls are shapely limbs. The dances prove that

they are graceful dancers. The choruses declare that some of them can dance. David Abraham, Jr., plays The Cat, a huge and sportive monster; Will Kennedy does good comedy work as King Memphis; Fred Wilson, as Wanda Maan, a spinster and Gertrude, is a very attractive but not very real or robust miller's son. Lena Mason takes the part of Princess Grendolich charmingly, both physically and vocally.

One of the best trained animal aggregations ever seen on the vaudeville stage is Adeline's Zoological Circus, which is composed of four bears, eight dogs, three monkeys and one ant-eater. These beasts are all trained to the top notch, even the huge brown bear showing a decided agility you would never suspect him of possessing. The ant-eater is a novelty.

"The Flying Piano" is a new and spooky thing. It's a ghostly white and descends through space from the upper regions, while a man, also white, floats to the piano, and the woman, likewise in white, stands on the lid and sings. Presently it begins to move from side to side, then to spin dizzily round and round, the man still playing on. That piano is a ballet.

GOOD TIME MADE IN RACES ON IRISH HOLIDAY.

BY GRET OLIVER.

THE big benefit for the firemen and policemen put a crimp in the attendance at the St. Patrick's matinee at the Los Angeles Driving Club yesterday afternoon at Exposition Park, but, even though it was wash day, a fair-sized crowd of lovers of the horse saw the contest. There could have been no objection to the sport offered, for it was high-class in every way and the time made was all that could be asked.

The feature of the card was the first race, the special pace, and in this were entered Little Bernice and Dorocho Boy, the proposition being whether or not Little Bernice could lose to Dorocho Boy. She did not, for she won two straight heats in 2:15 and 2:13 1/2, and the little filly did not seem to be pressed to the limit at that. The fact that she made a last quarter in 6:10 1/2 shows that she is a fine prospect.

The result: Pacing, special class: Little Bernice (Watkins) 1 1

Dorocho Boy (McLellan) 2
Time, 2:15, 2:13 1/2.
Pacing, 2:15 class:
Tim Whittier (Ward) 1
Ma Jella (McLellan) 2
Iris (Mahoney) 3
Time, 2:18 1/2, 2:15.
Trotting, 2:30 class:
Victor Mack (Murphy) 1
Zemine (J. Williams) 2
Bonnie Ted (Thomas) 3
June Bug (Hord) 4
John Kelly (F. Williams) 5
Time, 2:18 1/2, 2:20.
Mixed, 2:30 class:
Zemine (Watkins) 1
Time, 2:31 1/2.
BIG MATINEE.
The leading spirits in the Driving Club have decided to celebrate the completion of the new grand stand in May with a big benefit for the children at the McKinley Home. There will be all kinds of big features to attract the sport-loving public, and the programme will be announced later.

SCHIMPF TO SEE OWENSMOUTH.

Chief of A.A.A. to Meet
Chief of the W.A.A.

Garbutt to Greet the Big
Man from the East.

Road Race Promises Fine
Card on Fast Course.

BY BERT C. SMITH.

William Schimpf, chairman of the contest board of the Automobile Association of America, will be in Los Angeles a week from today. In a telegram yesterday Chairman Schimpf announced definitely his plans and says he will be here for the Owensmouth road race a week from Saturday. Here is the dispatch: Bert Smith, Automobile Editor: Agreeable to my promise, am advising you that I will arrive in Los Angeles on or before Tuesday, the 25th. Would be more than glad to meet you.

WILLIAM SCHIMPF,
Chairman Contest Board, A.A.A.

CHIEF COMING.

This settles the whole matter. The big chief will be here in time to discuss some of the important questions with Chairman Frank A. Garbutt of the Western Automobile Association. The conference will mean much for both the A.A.A. and the W.A.A., as the two big chiefs will meet for the first time on common ground and differences, if there happen to be any, can be settled.

The Owensmouth road race promises to be one of the best ever pulled off in the West. Already one of the fastest cars in the world are entered, and there is a prospect that both Ed Lovelace, with National, and Ed Lyons, with another National, will be entered in the lists against the big cars. With both Oldfield and Tetzlaff driving, the race will have a championship favor all its own. The fact that Chairman Schimpf has arranged his visit to the Coast at the time of the big meet adds zest to the contest. The management will endeavor to make this contest one of our best races. The eyes of the East will be on us and Chairman Schimpf will have a chance to study just how we run a big race here.

THIRTY CIRCUITS.
The race will be 360.1 miles, and it will be necessary for the cars to travel at least thirty times around the circuit, which is a trifle more than six miles around. This will give the crowd a great chance to see the race from the vantage point along the course. The cars can be observed from the start to the finish and the racers are in sight from the grand stand from the moment they are sent away until they cross the line at the finish.

There will be two classes in this race, the light cars. The first division will be for cars of 300 cubic inches and under and the second for the heavyweights. Both classes will be sent away together. The light car race will send the cars thirty-one times around the course and the heavy race thirty-nine times. If the faster car drivers so desire they can continue on to the longer race and earn the larger purse, if possible.

COURSE IN SHAPE.

But little remains to be done on the course to put in perfect shape for the world's record, which is predicted. All the bridges are in place, and with the exception of the canyon road, the highway is as smooth as glass all the way around the six-and-a-half-mile circuit.

Sherman way, on which the home stretch is located, has been smoothed out until the car tracks are flush with the asphalt, and when a trolley pole, which stands at the Canoga-avenue intersection with it, is removed, the final mile of the speedway will be as safe as possible.

Manager Hempel yesterday engaged Contractor Davis to erect the grand press stands and the pits. The work will be started this morning and Davis promises to have the structures completed in ample time to accommodate the thousands who will watch the race. Requests for box seats have already been received by Hempel, but he will make no reservations until the seats are placed on public sale late this week.

Practice hours for the drivers will start next Monday and every morning between 6:30 and 8:30 o'clock until the morning of the race, the spectators will have ample opportunity to try out their cars over a fast road. As the course has been made in less than seven minutes, even before the present repairs were completed, and by an amateur driver, it is expected that actual competition will find the cars going around in close to the five-minute mark—all of which looks bad for the world's record mark of 7:7.7 miles an hour, established by Tetzlaff at Santa Monica last year.

"CHEAP GUY," SAID KAYO'S SECOND.

"Cheap guy," hissed Kayo Brown's chief second, Earl Mohan, yesterday as Dan Morgan handed him a \$5 bill. This was Dan's idea of a reward to Mohan for having been Kayo's chief second during the fight. Mohan refused to accept the money, and after some argument Morgan gave \$10 to give to the recalcitrant one. "Why," said Mohan, indignantly, "I seconded Mike Doll at Vernon Saturday and he gave me \$25.00 out of the \$12.50 he won for knocking out his man."

WOLVES WIN EASILY FROM YANNIGANS.

(BY A. F. NIGHT WIRE TO THE TIMES.)
MARYSVILLE (Cal.) March 17.—The effective pitching of Ralph Stroud enabled the Sacramento Coast Leaguers to put over a 5 to 1 victory on the Chicago White Sox squad No. 2 here today. The game was called at the end of the fifth on account of rain, the last two innings being played in a steady downpour. The Sacramento players lunched hits effectively off Chief Johnson in the first, third and fifth frames, the hitting of Lewis featuring. Tummy Tennant, the former lead, played his first game with Sacramento and rapped out a three-bagger on his first time at bat, scoring a minute later on Cheek's single. In three innings Ping Bodie went to bat with men on base and was unable to connect for a safe hit. On his second trip to bat the bases were filled with one out and Bodie struck out. Score: R. H. E.
Chicago 0 0 0
Sacramento 5 1 0
Batteries: Johnson and Gosssett; Stroud and Cheek.

STANFORD GOSSIP.

(Special Correspondence of The Times.)
STANFORD UNIVERSITY, March 16.—A. W. Higgins, '12, of Hockley, Eng., has been elected captain of the Stanford soccer team for next year.

The women's basketball team of Stanford has arranged a game with the University of Nevada women's team, to be played here March 24.

Ray Maple, '14, Stanford's star center, held Ireland's Independence one hit and no runs, yesterday. Workman, '14, of Los Angeles, led the hitting for the Cardinal team.

The Stanford baseball team has won ten, tied one and lost three games so far this season.

March 20 has been set for the first annual baseball field day at Stanford. Competitive throwing, running, batting and other stunts are to be held.

WHITNEY DID NOT BUY ANY PONIES.

(BY A. F. NIGHT WIRE TO THE TIMES.)
NEW YORK, March 17.—Harry Payne Whitney, who returned today from Europe, laughingly denied that he had been buying polo ponies in England. Asked about the outcome of the international matches at Meadowbrook, he said: "You know as much about it as I do. The result will depend on the horses. England is going to great lengths this year to turn out the best team she has ever got together."

J. M. Waterbury also returned for the matches. He denied that he had been buying ponies.

REMARKABLE SCORE IN CRICKET MATCH.

J. H. Fellow, at one time a prominent member of the South Australian cricket eleven, who has on more than one occasion been a candidate for a place on the all-Australian team, recently put up a remarkable record. Playing in a club match near Adelaide for the Grange, against Comandant Valley, he carried out his bat for 261 runs. The extraordinary circumstance was that no other batsman on his side scored a run and there were no sundries. The total, therefore, was 261 runs.

LEWIS COMES BACK AND WINS FIGHT.

(BY A. F. NIGHT WIRE TO THE TIMES.)
LONDON, March 17.—Harry Lewis, the American welterweight, knocked out Jack Harrison, middleweight champion of England, in the third round tonight of a twenty-round contest at the National Sporting Club. Lewis obtained an award of £1750 damages last February in a suit against a motor car company because of injuries he had sustained in a tangle accident, which, his counsel argued, had impaired his nerve vitality and his ability to fight.

Pyrotechnics at U.S.C.
The rally that the U.S.C. students staged yesterday morning in honor of the Stanford victory was one big scream from start to finish. All the students gathered on the campus and had a big serpentine of flags. When this was over the assembly hall the speakers and the heroes cheered to the echo. Several non-combatants were forced to make speeches and some latent talent was discovered.

Coach Boyd Comstock was called to the front, and all the man that developed Jackson could say was "It was a big day and a big night." Now what did Boyd mean?
The "indoor meet" was concluded with a burlesque relay. Two teams tumbled around the chapel platform in great style, nearly upsetting the pipes organ during the mad career. The last lap where Jackson was shown winning from McClure was very realistic, as the man who represented McClure nearly broke his shin in attempting to fall at the right minute.

Following the relay all the students piled into suits and suits, and had one grand parade through the streets of the city. If there is anybody in Los Angeles who does not know the score of the Stanford meet, he is deaf, dumb and blind.

Everybody loves a winner and the Trojans have come into their own.

The "Hus-Tiger" "Combination."
The combined Occidental and Pomona track team, which is to meet California and Stanford in the north prior to the meet between these institutions and the Trojans, has not been closed as yet.

The closed competition of the dual meet between the Tigers and the Hus-Tiger Saturday showed that the two teams in combination may prove tough going for the northern universities. However, it is added, the Hus-Tiger Saturday showed that the two teams in combination may prove tough going for the northern universities.

Strong Team Possible.
By taking men from each college a team can be formed that will be well balanced in all the events, with the exception of the weights here. Harries of Pomona is about the only man who is sure of a good place and

MARQUARD VERY HAUGHTY STAR.

Does Not Care to Talk Even Over the Phone.

Intends to Leave Today for Giants' Camp.

Kinsella Played With Dillon Twenty Years Ago.

Rube Marquard, the New York National pitcher, who recently gained fame by climbing out of the window of an Atlantic City hotel with Blossom Seelye, while the latter's husband was giving an exhibition of his athletic tendencies by trying to batter the door down, and who later added to his distinction by becoming the husband of the celebrated "Turkey Trotter," arrived in Los Angeles yesterday and is to work out with Hap Hogan's Venice Tigers today.

The man who pitched two out of the three games won by McGraw's club in the world's series, was accompanied by his beautiful wife and Dick Kinsella, scout for the Giants and touted next president of the Philadelphia club. The party registered at the Alexander hotel.

RUBE IS HAUGHTY.
From his haughty attitude toward visitors and interviewers, it appears that during his brief career behind the footlights Marquard's system has absorbed some of that brand of temperament dispensed by our famous prima donna ladies who refuse to appear when they have missed out on their milk bath.

The only way he could be interviewed was over a telephone. Even this means of communication required the assistance of the reserve force of the hotel staff. There was nothing wrong with the elevators, but Marquard was busy.

Johnny Kane came to the front and offered himself up as a sacrifice, but with no success. The great Marquard would not invite visitors to his room and had no desire to entertain in the lobby.

ADMITTED HAVING SIGNED.
Made admitted in a Dave Martford voice that he had signed with the Giants and would leave tomorrow with his wife and Kinsella to join the club at Houston, Tex. He positively said that he was going to give the club all he had during the coming campaign.

"I feel that it is going to be a big year for me," vibrated the receiver. "Mrs. Marquard will accompany me throughout the entire season and make the complete circuit every time with the club."

NO EXPLANATIONS.
It was hoped that the man on the other end of the wire would explain why so many big league celebrities go " loco" at the close of every season and swear by a stack of Bibles as high as a church that they will never play ball again, and then take back their "crucial words" and return to the fold.

Marquard panned McGraw a short time ago and said he was through with the Giants' manager for all time. Art Shuster said two days before he left for the training camp that he would never play in a big league game again, yet he is on the job now.

This was a subject which Blossom Seelye's husband didn't care to discuss, but Johnny Kane explained it by saying that all ball players were "nuts."

"How does it seem to be the husband of such a well-known stage luminary as Miss Seelye?" was a rather personal question.

"Emulating Mr. Rogers," came the reply. "I refuse to answer by advice of counsel."

"Does the stage compare with the diamond when it comes to winning applause?" was the next impertinent demand.

"Again," repeated Blossom's husband, "I prefer to follow the example set by Mr. Rogers."

"I would like to see old Rube," said Johnny Kane, in the hotel lobby. "In the first game he ever pitched in the big leagues he was hit by a line drive. He says he can't hit such a small object."

It was in the game with Cincinnati in 1893, that Marquard and Bill Durham were both used and Cincinnati beat them. This was the same game that Chicago beat the Giants out for the world's title in the extra game, with Mathewson in the box for New York.

DICK KINSELLA.
Dick Kinsella, McGraw's scout, was not so tight with his chatter as the pitcher. He was snored under with telephone calls and had several interruptions looked for the evening yet he gladly gave all the time that was asked for, and talked freely.

The scout shook his head and said that the little Venice star and recalled some of the games in which Kane played while wearing a Cub uniform.

"How's Hap Hogan?" were almost his first words.

Johnny told him that he was all to the good and that he would be down town later in the evening. Kinsella went to the phone and called the Venice manager and the two got together in the telephone of Hap's car in a remarkably short time.

"We will win the pennant again this season," smiled the scout. "The Giants are going to do more than that, according to my dope sheet. It's the world's series this time for us."

GOING BACK TOMORROW.
"Marquard and his wife will accompany me to Houston, where we are to join the club. We are leaving Wednesday. Los Angeles will not get a chance to see them in their act, for which I am sorry, although I am the man who did it."

"When the pitcher signed the contract for me, their business at Oakland, Sacramento and Stockton were cancelled. I can assure you that Mrs. Marquard and her husband will not appear on the stage again until the close of the coming baseball season."

Kinsella is the man who sent Larry Doyle up from the Springfield club. This is his first visit to Los Angeles and he says he is delighted with the city, although it had been described to him as an overgrown village, famous for its purity.

DICK KNOWS DILLON.
"I know Dillon of the Los Angeles

This stuff beat Bud Anderson. Anderson undoubtedly killed himself working around his training camp before the Kayo Brown fight.

WHY WAS BUD ANDERSON ALLOWED TO OVER-EAT?

Van Court Asks Some Pointed Questions and Ridicules the Methods of Present-Day Trainers. With Their Mania for Rubdowns—Gans, Preparing for His Hardest Fight, Had Just Three Rubs.

By DE WITT VAN COURT.

FOOLISHLY remarked to Dick Donald one week ago last Monday, that I thought Bud Anderson was stale and advised a lay-off for him. Donald insisted that he could make the weight easy and was in the condition.

The usual "holier" came after the fight. Dick said Bud overworked himself and ate too much the day of the fight.

Where was this manager and trainer when Bud stuffed himself a few hours before entering the ring? Why did he allow it if he knew it was wrong?

Dick also told me several days before the fight that Bud was off a little, from the fact that there was a "wise guy" down from Medford that thought he knew it all. He was holding secret sessions with Bud and pointing a lot of stuff in his ear about his condition, and that he got Bud worried a lot.

"But," said Dick, "I gave him the run out of the camp and Bud will be all right by Saturday."

Several of the Boston National ball players at Athens, Ga., reported to me that the water at breakfast yesterday morning with head colds. No serious colds in throwing arms are reported yet, however, and that is the reason that the water was so hot.

The trainers who are always the self-styled trainers are the most conspicuous people around a training quarters. There is a great flourish with a towel, bottle and sponge, and they are usually dressed in a loud sweater and cap, giving all sorts of advice to his man and the crowd, but never failing to look very wise when spoken to. And a more suspicious bunch never lived.

After the contest is over, and they are lucky enough to have a winner they are always the man who won the fight. Provided the manager is not around to hear what he has to say.

Then again they can always tell you what a great rubdown they used and the dope they gave their fighter to make him win.

But not one in a hundred could tell you a cross-counter from an uppercut. These are the people who get a man into the ring in good condition.

I had the pleasure of meeting Frank "Molly" McDonald yesterday, who happened in town for a few days and witnessed the Anderson-Brown fight. Molly said the first thing: "Who trained Anderson?" I could not answer, as I did not know.

Molly trained Joe Gans for all his fights on the Coast and the one in Goldfield with Nelson, besides many others, and was the man who discovered Willie Ritchie and brought him out.

I asked him what he thought of rubbing a fighter and training in general. This is what he said:

"When I trained Gans he worked for three weeks. During that time he had just five rubs and they were given him the first five days of his training to prevent soreness. The day of the fight he only ate two poached eggs and a piece of toast and a cup of tea. This is all he ever ate the day of a fight when I trained him. You remember, he fought Nelson forty-two rounds in the hot sun."

Molly also said: "The present-day trainers are the greatest jokes I have ever seen. They train every man alike, and they are daffy over the rubbing. I have had fifteen years' experience in the game and every time I train a fighter I learn something I never knew before. It takes experience from a practical standpoint and you cannot learn it from books, either. They are also losing the art of boxing. They have no more instructors around the country."

Molly predicted Bob McAllister the best in his class. He saw him fight Willie Meehan a few days ago and said Meehan never hit him once during the fifteen rounds they fought, and it was all owing to the straight left-hand punch he had. "None of these covering up or winging fighters for mine," said he, as he left to take the Owl back to San Francisco.

In talking about these rubbers, and to prove what a lot of bunk it all is, Dan McLeod, the light heavyweight wrestler, and at one time the champion heavyweight wrestler of the world, is one of the greatest professional athletes that ever lived, is 32 years old this month and willing to meet any man in the world at his weight.

I saw Dan win thirteen first prizes and two seconds in the Caledonian games in old Shellmound Park up north twenty years ago.

He started in at 9 o'clock in the morning and did not finish until 6 o'clock at night. He entered in the mile-run, running and standing high jump, running broad jump, hop, skip and jump, throwing the hammer and shot put, tossing the caber, which weighed 135 pounds, and several other contests.

Dan said: "I never had but one rub-down in my life, and then did not wait for the rubber to finish his job. It is all a lot of bunk. A good rough Turkish towel is all I want. I do my own training."

club very well," continued the Giant runner-shoe, "he was playing on the Bloomington club with me twenty years ago. Clark Griffith was a member of the club at that time also. Of course, I am a little older than the Los Angeles captain. He started in just about the time I graduated into a manager."

"Dillon was a pretty young man at that time. Bloomington was his home town, and I remember him as making a great effort to raise a growth on his upper lip."

"He has shaved that off now," laughed Kane. "Cap is a good man at that, but we are going to make his club look like a joke again this season."

"All the luck in the world, my boy," offered McGraw's recruiting officer, "old Hap Hogan is a friend of mine, too."

BIG LEAGUERS WORK.

HOT SPRINGS (Ark.) March 17.—The Red Sox team got through the first week at the age in fine shape. Joe Woods, who had been keeping-Speaker company with a sprained ankle, appeared to be just as good as ever this afternoon, his limp having disappeared along with Spoke's.

The room-mates were out on a long jaunt today and swung back to the hotel like a couple of Dan O'Learys.

FIRST IN TEN YEARS.
It is just ten years or very nearly ten since the Pittsburgh and Boston clubs met. This it was in the world's series of 1903, which, all true ball fans know was won by the Collins crew after a great fight. Of the members of the clubs which waged that series of battles but two were present, and on the firing line ready for today's game.

These are the two: Fred Clarke and Honus Wagner, both of the Pirates. Clarke said tonight that he did not expect his players to take the series seriously.

"If it were a world's series it would be different, but these practice games must be frequently fought."

"Do you expect to meet the same club next October?" he was asked. "I can't take care of that end of it," he returned. "They'll have to look out for themselves. All I can care of is my own little club and I hope to have that fighting for the race at least in the last stage of the race."

CLOSE GAMES.
Baltim weather and a large crowd greeted the opening of the Boston American and Pittsburgh National series of nine games here today. Pittsburgh won 4 to 3.

Bedient allowed no hits in the three innings he was on the mound for Boston. Adams and Robinson for Pittsburgh were hit freely, but the hits were scattered. Score: Boston, runs, 3; hits, 3; errors, 0. Pittsburgh, runs, 4; hits, 4; errors, 1.

Batteries, Bedient, Leonard, Foster; Carr, Carr, Adams, Robinson and Kelly, Gibson.

When the Highlanders arrived at Bermuda for their training two weeks ago, Manager Chance wasn't sure of the make-up of his infield in any of its four positions.

The press leader learned that he could cover the initial sack with his old accustomed skill, so he placed Clark at second, where he also is a fixture of the team of the Pacific Coast League, 5 to 6, today. Today's victory gives the Giants four out of the five games played against Portland. The score: R. H. E. Giants..... 6 13 1. Portland..... 0 4 1. Batteries—Lindsey and Putney; Stanley, Carson and Fisher, Riordan.

BREAKS OWN RECORD.
CHRISTIANIA (Norway) March 17. (By Cable and A. P.) O. Matheson, the Norwegian champion, established today a new skating record for 500 meters. He covered the distance in 44.4 seconds, previous record, 44.4 seconds, was made by Matheson, February 17, 1912.

Unusual Demand.
Archer, but Manager Evers and the club owner opine that there is a limit to salaries for star players and that Jimmy's demand for \$17500 is beyond the limit. Murphy says he will not yield to the demand. He says Archer will either leave or remain out of baseball. Breckinridge is nursing an injured finger and will not be able to catch for several days.

The word that came from Murphy to the effect that he will not increase his offer to Archer, didn't stop the fans from signing the petitions. Murphy is expected to return to Chicago Wednesday from Tampa, Fla., but Archer has not decided whether to remain here and meet the Cub boss or return to his home in Des Moines, Iowa, and await the outcome of his fight.

CHICAGO FANS HOT AFTER MURPHY TO GET ARCHER.
(BY FEDERAL (WIRELESS) LINE TO THE TIMES.)

CHICAGO BUREAU OF THE TIMES, March 17.—(Special Dispatch.) Jimmy Archer's fight for recognition as a baseball player took a spectacular turn when he was offered to sign the contract offered by the Chicago White Sox, No. 67 West Madison street, to sign a petition asking Owner Murphy of the Cubs to meet the star catcher's demand for a salary of \$17500 a year.

The petition was placed in the disposal of the public until nearly noon. After that hour the pages began to fill rapidly with names and at 4 o'clock there were fans standing in line waiting to sign the document.

Many duplicate copies were made. The petition reads: "We, the undersigned, respectfully petition you, Charles A. Murphy, to meet Jimmy Archer's demand for salary, which is \$17500 a year. We are fans of the Cubs and we want to see Archer, the greatest catcher in the game back to help the Cubs win the pennant."

The word that came from Murphy to the effect that he will not increase his offer to Archer, didn't stop the fans from signing the petitions. Murphy is expected to return to Chicago Wednesday from Tampa, Fla., but Archer has not decided whether to remain here and meet the Cub boss or return to his home in Des Moines, Iowa, and await the outcome of his fight.

San Bernardino Will Hold Primary Election Today.

Legality of Move Questioned by Lucky Candidates.

Local Option Election Called for in Petition.

San Bernardino, March 17.—An attempt to undo the tangle in the candidates for office at the primary election today in San Bernardino was made this morning when a decision was reached that the primary election will be held tomorrow and party nominations will be held today.

Whether such a primary can be held today is a question. Friends of the candidates who were on the ballot of the petition deal and there was no sufficient number of signatures to their petition. This morning the legal action may be taken to prevent nominees of the party from being placed on the ballot at the general election.

San Bernardino Attorney C. C. Haskell has filed a writ in the primary law court to prevent the election from being held today.

It is believed that the election will be held tomorrow and party nominations will be held today.

PROF. HADLEY IS IMPROVING.

YALE PRESIDENT IS RECOVERING FROM OPERATION.

Noted Educator, With His Wife, Has Been Spending Several Weeks in Ventura County—Hopes to Return East Soon—Making Plans for Series of County Institutes.

VENTURA, March 17.—According to a statement by Dr. Phillip Van Patten of Northridge, Prof. Arthur T. Hadley, president of Yale College, is now in the Ojai Valley, recovering from his recent illness and will in a short time be able to start on his return trip to New Haven.

Prof. Hadley came to this part of the State for his health, arriving in the Ojai several weeks ago. He is the guest of C. M. Pratt, secretary of the Standard Oil Company, who has an elegant winter home in the Ojai Valley near the foothills of the Northridge. The wife of the oil magnate and the wife of the great educator are sisters.

Some weeks before Prof. Hadley started for California he was compelled to undergo an operation for an ailment on his right chest. The illness weakened him and he was in a rather feeble condition when he reached this Coast. Since arriving at the Ojai he has been making rapid recovery and has shown signs of marked improvement. No date has yet been set for his return East. When he leaves it will be in company with Mr. and Mrs. Pratt.

NEWS BRIEFS.

The Traders' Oil Company which is operating near the Casitas, and which was so unfortunate as to lose its rig by fire the past week, is making preparations to rebuild immediately and proceed with its boring operations. The hole is down 2400 feet and is in a promising oil sand.

County Superintendent of Schools Reynolds is making preparations for the next and third series of county institutes. The date and places for the holding of the institutes are as follows: Fillmore, March 24; Santa Paula, March 25; Oxnard, March 26; Ventura, March 27; Northridge, March 28; Moorpark, March 29. The programme for the institute to be held here will be a paper on arithmetic by Mrs. Canfield; Science in Grammar and High Schools, Everett C. Stanton; Household Decorations and Furnishings, Nora Buell.

It is now reported from Santa Paula that Dr. Henderson and Jeanette and Wilson Cummings, who were so badly hurt in an automobile accident a few days ago, are all fairly well to recovery. Miss Olga Cummings lost her life in the accident.

William Elwell, who was shot in the neck at Oxnard a week ago by Dan Fitzpatrick, is recovering from his wound and will soon be able to get about. He has been located, but not yet extracted.

OZONATOR THE GREAT AIR PURIFIER

Cleanse and deodorize stagnant air. Particularly adapted to public halls, cafes, offices, vaults and homes. Demonstration gladly given. Distributed by

Pacific States Electric Co.

OWENSMOUTH.

Heavy steel pipes seven feet in diameter are being unloaded at Howitt Station below here on the Southern Pacific Railway, to be used in the great aqueduct to be built across the San Fernando Canyon reservoir, a distance of about twelve miles. It is designed to carry 3000 million inches of water to supply the city of Los Angeles.

The right of way is surveyed down Encino avenue and the Tejuca Wash.

The contract for building the large grand stand for the auto road race to be held on March 29 has been awarded to W. E. Davis of this town, and work will be started at once.

The hay crop is rapidly being hauled to the Southern Pacific warehouse for shipment to the city market. Over forty carloads of hay have been shipped in the past few days.

The future prospects for hay and grain in the valley are ample to warrant a movement of the present crop in storage. San Fernando Valley has been added to the list of sights for the tourist's observation car by the Pierce's company. Hereafter the party will dine in Owensmouth where some fifty to a hundred people will be fed.

H. A. Phillips and wife of Lowellville, N. Y., are occupying a suite at the Angeles when John W. Phillips, Louis Phillips and several other members of the family make up the party. Mr. Phillips is a member of the family of the son, who is a business man of Oakland, W. S. Tarbell, an attorney in Denver, is a guest at the same hotel.

Oceanside.

CITY RECORDER FIRED FOR INCOMPETENCY.

OCEANSIDE, March 17.—For a week past Horace E. James, an aged man, for several years holder of the office of City Recorder in Oceanside, candidate for postmaster and a stickler for the enforcement of the law against "blind pigs," has been very much in the "lime-light."

The trouble started when James insisted on holding a preliminary examination in a burglary case, which had been settled "out of court."

In spite of protest on the part of the City Marshal and deputy, and of Judge J. C. Hayes, counsel for defense, and the laying down of the law by the District Attorney to the contrary, James insisted on holding the trial on Sunday. During the hearing he sentenced Attorney Hayes to four hours' confinement in the City Jail for contempt of court, although the sentence was shortened to one hour and a half after Hayes had been in durance vile that length of time. The hearing was then resumed and the defendant discharged.

Attorney Hayes laid the matter before the City Trustees, holding that James was unfit to hold the office of City Recorder on account of incompetency. A hearing was held, although the Recorder was not present, which resulted in declaring the office vacant. Low W. Stump was appointed Recorder. Now it is intimated that James will refuse to turn over the books of his office and will contest the action of the City Trustees in deposing him without an opportunity to be heard.
